Case Study: Ayrton Senna

This Astrocartography map belongs to Brazilian Formula One race car driver and three-time world champion, Ayrton Senna, who tragically passed away 30 years ago on May 1st, 1994, at the age of 34, during a dramatic accident at the San Marino Grand Prix in Italy.

As you can see, Europe is a complex area for Senna, with Saturn ♄, Jupiter ♃, and the Moon ☾ on Medium Coeli (MC), Pluto ♇ and the North Node ♊ on the Descendant (DS), and the Sun ☉ on the Ascendant (AS). But if you race in Formula One, you cannot avoid Europe because there are many circuits that host

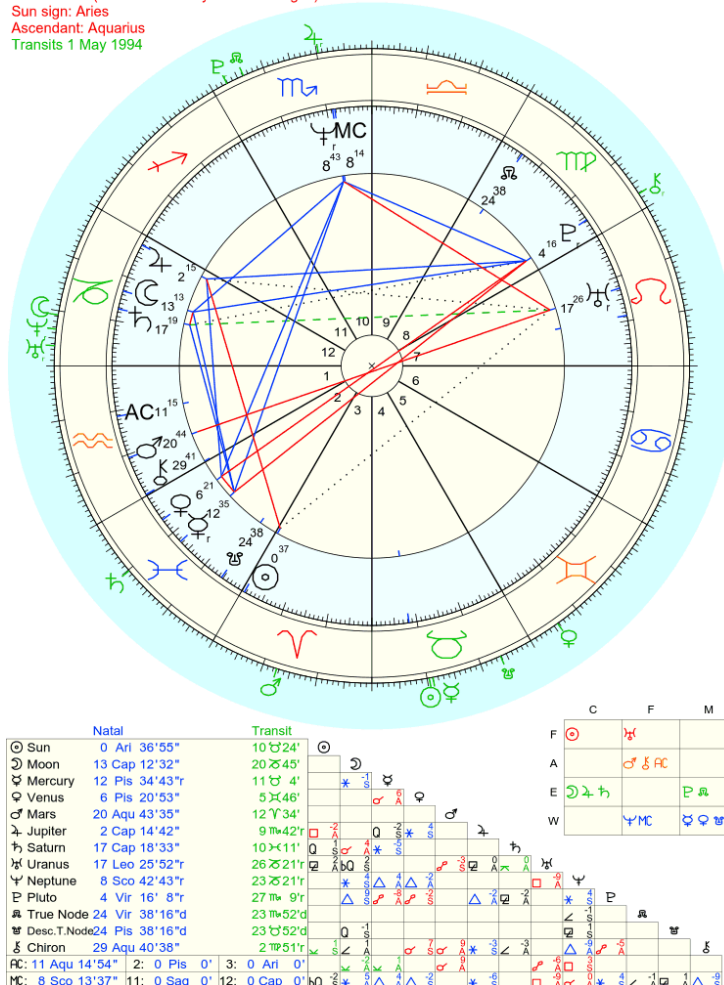

Formula One events.

He began racing in Europe when he was around 24 years old, and for 10 years, he didn't have any accidents except one at the Belgian Grand Prix. The impact was severe, but Senna miraculously emerged from the wreckage with only minor injuries.

Natal Chart (Method: Web Style / Whole Signs)
Sun sign: Aries
Ascendant: Aquarius
Transits 1 May 1994

In May 1994 when he had the fatal accident at the San Marino Grand Prix, transiting Pluto ♇, North Node ♁, and Jupiter ♃ were in his 10th house of career, pushing him to reach new limits. Unfortunately, transiting Saturn ♄, with its restrictive effects, was crossing above his natal Mercury ☿, the planet responsible for reasoning and calculation.

Astrocartography works, but you need to differentiate whether you are going to live permanently or temporarily in a location. If you are going to live permanently in a troublesome place, take it seriously. If you are visiting a troublesome place for leisure or business, you may be safe,... unless you have troublesome transits.
